**MINUTES-REGULAR SESSION  
CITY OF GODDARD  
118 NORTH MAIN, GODDARD, KS  
March 9, 2020**

The Goddard Planning Commission met in a Regular Session at Goddard City Hall on Monday March 9, 2020. Chairman VanAmburg called the meeting to order at 7:11 p.m. Chairman VanAmburg led in the Pledge of Allegiance and the Invocation.

Commission members present were:

Justin Parks, Jody Dendurent, Doug Hall, Jamie Coyne, Doug VanAmburg

Commissioners absent were:

Darrin Cline, Shane Grafing

Also present were: Micah Scoggan, City Planner ; Cody Schellenberg, Schellenberg Development; Joey Deneke, MKEC; Tori, Lease Wichita, Logan Mills of CED

**APPROVAL OF THE AGENDA**

**MOTION:** Commissioner *Coyne* moved to approve the agenda. Commissioner *Hall* seconded the motion. The motion carried unanimously.

**APPROVAL OF THE MINUTES**

**MOTION:** Commissioner *Coyne* moved to approve the minutes from January 10, 2020. Commissioner *Dendurent* seconded the motion. The motion carried unanimously.

**CITIZEN COMMENTS**

Thomas Bariner {211 N Cedar} Stated that most of the neighborhood did not want this development going in. He said that most of his neighbors thought that the Planning Commission was going to act in favor of the development regardless of what the neighbors thought. He said he noticed it went from a 5-plex to a 3-plex but he stated he still didn't want any rental of any kind.

Chair VanAmburg stated that the Planning Commission tabled the matter and spent several months in deliberation prior to coming to their conclusion.

Thomas Bariner asked whether they were going to approve it.

Chair VanAmburg said he believed they were.

Thomas Barriner said you don't care what we think and left the meeting

## **BOARD OF ZONING**

### **F.1 Sign Variance for Arbor Creek**

*Scoggan* introduced the subject. He stated the development known as Arbor Creek is in the process of putting together a sign for marketing their subdivision within the City of Goddard. This marketing sign is consistent with almost every other subdivision around the metro area. However, the sign they requested to build exceeded the gross square footage allowable within the zoning classification for Arbor Creek, which is an R-1 zoning.

He stated the sign ordinance for R-1 deals predominantly with residents who want to put up signs in their yards and not with the overall marketing of the subdivision. As such it can be cumbersome for developers to submit a marketing sign for a R-1 subdivision only to find the sign ordinance for R-1 prohibits the sign from exceeding a certain size common for larger marketing signs.

He stated that there are criteria for both determining if a variance can be used and when it is accepted as a valid variance

*Scoggan* recommended that the Planning Commission approve the variance request for the Arbor Creek subdivision.

Commissioner *Hall* asked if the sign would be permanent

*Schellenberg* stated it would be up till about 80% of the lots were sold. If it fell into disrepair during that time they would fix it to keep it looking nice.

Commissioner *Dendurent* asked if there were any other requirements that this variance would cover or was it just the gross sq footage?

*Scoggan* replied it was just for the gross square footage

**MOTION:** Commissioner *Hall* motioned to approve the sign variance request for the Arbor Creek subdivision. Commissioner *Dendurent* seconded the motion.

**5-0** Motion Carried

## **OLD BUSINESS**

### **G.1 227 Cedar St R-3 Rezoning Request**

*Scoggan* introduced the subject. He stated AST Investment properties had submitted a rezoning request for a property located at 227 N Cedar St. The property currently exists as an empty lot and the builder is proposing to build a 3-plex. The current zoning is R-1 and they would like to rezone to a R-3 zoning classification.

*Planning Commission Minutes*  
*March 9, 2020*

He stated the Planning Commission tabled the consideration on December 9, 2019 and approved a motion for a resubmittal of the rezoning application from a PUD to an R-3 on January 13, 2020.

He further stated the developer changed the design from a 5-plex to a 3 plex dropping the number of units and allowing the new proposal to fit the bulk regulations of a R-3 classification.

He recommended that the Planning Commission approve the approve the rezoning of the property located at 227 Cedar St.

Commissioner *Parks* stated that he felt that multi-family is often mischaracterized and often overlooks the potential for housing teachers and others who would want to live and work in Goddard.

He further stated that perhaps the zoning was wrong and in fact it needed to be zoned this way initially. It makes more sense to have a higher density zoning running parallel to a business district.

Commissioner *Dendurent* agreed stating there was many missed opportunities and she had received several offers already by developers who wanted to flip the house at a higher cost or rent out.

*Tori* of Lease Wichita thanked the Planning Commission for their comments.

**MOTION:** Commissioner *Dendurent* motioned to approve the rezoning of the property located at 227 Cedar St. Commissioner *Parks* seconded the motion.

**5-0** Motion Carried

## **NEW BUSINESS**

### **H.1 Easement Dedication Arbor Creek**

*Scoggan* introduced the subject. He stated that Schellenberg Development is going through the physical process of building the subdivision known as Arbor Creek. During this process, small changes in the design may occur requiring review by the Planning Commission and Governing Body.

He stated after initial design work the engineers of MKEC who represent Schellenberg in this development would like to dedicate an additional 10' to an existing 20' sanitary sewer easement.

He stated how the Planning Commission would first need to determine if those offering the dedication can in fact make such a dedication to the City.

He stated if the title work proves accurate than the Planning Commission will determine if the dedication would be in the City's best interest.

He noted Developer does have the title work for this property and the engineering firm MKEC represents the developer. After which a recommendation will be made before the Governing Body to either accept or reject the dedication.

He stated dedications do not require public notice.

He further stated the City Engineer and the Public Works Director approved of this dedication.

*Scoggan* recommended the Planning Commission approve the Arbor Creek sanitary sewer dedication.

Chair *VanAmburg* asked if this was a common occurrence because he had never seen this before.

*Deneke* replied that subdivisions commonly go through dedications by separate instrument as the project changes.

Commissioner *Dendurent* asked about the drainage easement behind the properties if they were already platted.

*Scoggan* replied that they were and that easements prohibited permanent structures from being in the easement with the exception of fences

Commissioner *Dendurent* asked if the original design did not have the force main taken into account?

*Deneke* replied they had not designed for it but changes to the engineering required it.

**MOTION:** Commissioner *Dendurent* motioned to approve the dedication of the easement for the Sanitary Sewer. Commissioner *Parks* seconded the motion.

**5-0** Motion Carried

## **H.2 Removal of the Design Review Committee (DRC)**

*Scoggan* introduced the subject. He stated that the Design Review Committee has the same function as the Planning Commission regarding Site Plans, making the committee redundant. The DRC is non-active and can become misleading to developers who would want to have the DRC review a site plan if they missed a Planning Commission date. Reducing needless subcommittees unifies the City with less groups handling project material and decision making.

If approved, this recommendation would go on before the Governing Body for consideration to remove.

Chair *VanAmburg* mentioned that he used to be on the DRC and found that he would see the

*Planning Commission Minutes*  
*March 9, 2020*

same site plans and approve them based on the same criteria. He mentioned that the City Planner also reviewed site plans.

Commissioner *Parks* mentioned that it might be good for them to have a checklist for themselves for review of site plans.

**MOTION:** Commissioner *Coyne* motioned to approve the dedication of the easement for the Sanitary Sewer. Commissioner *Hall* seconded the motion.

**5-0** Motion Carried

---

**CITY PLANNER REPORT**

*Scoggan* informed the Planning Commission that on April 13,2020 they would be considering removing the Design Review Committee from the subdivision regulations. Scoggan informed the Planning Commission that state law requires 20 days advanced notice prior to any consideration for amending the subdivision regulations.

*Scoggan* informed the Planning Commission that on April 13,2020 they would be considering the Site Plan for 227 Cedar St after which the Developer could pull their building permits.

*Scoggan* informed the Planning Commission that on April 13,2020 they would be considering a Conditional Use Permit (CUP) for 301 E 1<sup>st</sup> for considering an accessory garage that exceeds 720 Sq Ft.

*Scoggan* mentioned that Justin Lloyd will be joining the City from Brigham Young University where he will be graduating with a Bachelor's degree in Geo-computing.

**GOVERNING BODY COMMENTS**

Chair *VanAmburg* apologized for his tardiness and the late start.

**ADJOURNMENT**

**MOTION:** Commissioner *Coyne* moved to adjourn the regular meeting.

Commissioner *Parks* seconded the motion. The motion carried unanimously.

*Meeting adjourned at 8:12 pm.*

**TO:** Planning Commission  
**SUBJECT:** 301 E 1st Ave - Conditional Use Permit  
**INITIATED BY:** City Planner  
**AGENDA:** Board of Zoning Adjustment

---

**Background:** Preston Roberts is the owner of 301 E 1<sup>st</sup> Ave. His lot is an above average lot sitting at around 0.5 acres. This lot currently has an attached garage but Mr Roberts was hoping he could build a detached garage on his lot if it abided by all the necessary setbacks. All Conditional Use Permits (CUP) must be approved through the Planning Commission.

This request by itself does not require a CUP but Mr Roberts was hoping he could build a detached garage at 1200 sq ft or 30x40. Currently the zoning and subdivision regulations limit the size of detached garages to 720 square feet and this is where he would like to get a CUP approved.

**Analysis:** According to Article 6 100.B of the Subdivision Regulations:

B. Permitted Accessory Uses. Any structure or use that complies with the terms of Section 6-100A may be allowed as an accessory use or structure and may be included, but is not limited to the following list: \*

1. Off-street parking and loading space as regulated by Article 5 of these regulations, including detached garages and carports. On lots for single and two-family dwelling units and all types of manufactured and mobile homes such structures may contain incidental space for storage and other uses and are limited to one each per zoning lot not over 720 square feet in gross floor area for a garage and 400 for a carport, unless a conditional use is approved by the Board of Zoning Appeals for a larger structure.

- The lot is large enough to allow the Accessory Garage safely without compromising the setbacks
- The accessory garage will increase the property value of the lot.
- The request was published in the paper and sent out to everyone with 200' of the property and no phone calls or emails of concern have been voiced.

**Financial:** Public notice was given incurring a small cost.

**Legal Considerations:** Approved as to form

**Recommendation/Actions:** It is recommended that the Planning Commission approve the Conditional Use Permit for the detached garage for the property located at 301 E 1<sup>st</sup> Ave (**VOICE**)

**Background:** AST Investment properties has gone through the rezoning and process which was approved by the Planning Commission and the Governing Body. Now they have submitted a site plan for review and approval before the Planning Commission.

**Analysis:**

- All new structures are required to have a site plan submitted except for single family-detached and duplexes (unless the duplexes are in a grouped setting with a common area)
- Staff has reviewed the site plan and found it in compliance with the subdivision regulations.
- The Planning Commission could require additional provisions should they feel it is necessary for the safety, health and welfare of the community.

**Financial:** None

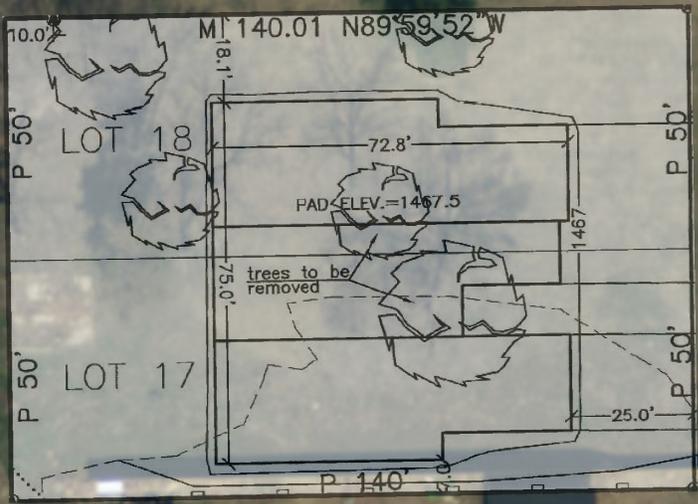

**Legal Considerations:** Approved as to form

**Recommendation/Actions:** It is recommended that the Planning Commission approve the Site Plan for 227 Cedar St (**VOICE**)

**TO:** Planning Commission  
**SUBJECT:** Several items of note for informative purposes but not for voting on  
**INITIATED BY:** City Planner  
**AGENDA:** Staff Report

---

**Background:** Micah Scoggan, City Planner, compiles a short concise report outlining relevant information and presents it to the Planning Commission.

**1. COVID-19**

COVID - 19 has caused a slowdown in the development rate we would have normally anticipated during the spring. Even so we have seen building permits and roofing permits coming in as well as the occasional fence permit. More people have been asking about Chicken permits and we have even issued one for a property in Goddard that does not have an HOA.

**2. STAR BOND**

The STAR Bond is moving forward. We are now seeing the walls being erected but they are limited when they can put them in as each wall weighs 35 tons and they must wait for a day when the wind is not blowing hard.

**3. PERMIT PORTAL**

The City permit portal is moving forward, and we anticipate it will be up and running sometime in mid-May. This permitting software will allow anyone to pull permits from the City website and pay for them online as well as track the status and approval from any electronic device.

**4. ZONING/MULTI-FAMILY**

We have had another developer ask about zoning in the City for multi-family. This trend is remaining steady despite the COVID-19 virus and this could be because property is seen as a relatively safe environment for money right now.
