Viewpoint Cloud was offering its service at \$11,140 for the introductory rate. It would have then dropped to \$7,447 for the following year and increase by 7% annually year over year.

Scoggan explained that staff negotiated a 3-year contract at \$10,560 per year until January 7, 2022. There will be a one-time implementation fee of \$7,680. The difference from the previous quote, for the years are as follows: 2020 - \$18,240 (difference of \$7,100); 2021 - \$10,560; (difference of \$3,113) 2022 - \$10,560 (difference of \$2,591.71). **CITY ADMINISTRATOR'S REPORT**

To: Honorable Mayor and City Council  
From: Brian W. Silcott, City Administrator  
Cc: Department Directors & Staff  
Re: City Administrator Report for the week of January 6, 2020  
Date: January 6, 2020

Below is a brief update on City operations, projects, and future agenda items for the City.

STAR Bond: The building permit for the Genesis Health Club at the Goddard STAR Bond was pulled in December of 2019. The dirt work and pad for the build are currently in progress. Below is an updated picture of the STAR Bond Site:

Arbor Creek: The first phase of Arbor Creek Addition is progressing nicely. Phase 1 consists of 55 homes and includes sanitary sewer mains and laterals as well as the paving that will reach into the middle of the new subdivision's club house. The current total for special assessments is \$2,891,000 in phase 1 and collector improvements. The SE Growth Corridor Sewer Lift Station should be presented at the January 21<sup>st</sup> regular city council meeting. Special assessment costs are paid entirely by the developer and the home buyers. Arbor Creek will have a total of 245 homes with an average value of approximately \$300,000 at build out.

Revenue/Tax Burden estimates follow: The assessed valuation of a \$300,000 home at the assessment rate of 11.5% is \$34,500/home and \$1,150 average municipal tax bill at the current and historical mill levy of 33.323 mills. Phase 1 will generate \$63,250 in property tax collections and full build out is an estimated valuation of \$8,452,500, generating \$281,750 in City of Goddard (municipal) property tax collections.

Clover Leaf: Work on Clover Leaf Addition is picking up momentum. The image below shows work on the storm water system for Phase I. Clover Leaf contains 133 total lots. Phase 1 consists of 50 total homes with 22 lots sited along Martens Ct. for duplex units which will increase water and sewer customer count by 44 users. Phase 1 also includes 28 lots for single family residential homes. Clover Leaf Phase 1 has \$2,211,000 in special assessments, although this amount may be somewhat less as stormwater and paving work concludes. The exact value of an average home is currently unknown. More information will be provided to the Governing Body as it is known. An aerial image from Friday, January 3, 2020 is on the following page.

Elk Ridge: This final phase of Elk Ridge includes 24 lots bringing the total lots in Elk Ridge to 77 total homes. There are currently 53 homes in Elk Ridge with 31% of the lots available for purchase. This phase includes \$830,800 in special assessments. The average home value is

\$300,000, an assessed valuation of \$34,500, and generates \$1,150 in municipal property taxes. At full build out Phase 3 will generate \$27,600 in City taxes and a total subdivision generation of more than \$88,500.

Rustic Creek Addition: City Planner Micah Scoggan plans to present a plat approval for Rustic Creek Addition at the January 21<sup>st</sup> or February 3<sup>rd</sup> regular City Council meeting. This addition contains 106 single family lots for construction. The anticipated average home value is not yet known but it is anticipated to be in line with St. Andrews Addition average values totaling \$200,000, which is an assessed valuation of \$23,000 and generating roughly \$770 in municipal property taxes at the current mill levy of 33.323. This addition is located immediately to the east of Autumn Blaze Addition and the homes along 199<sup>th</sup> Street West behind the Orscheln's. Access is planned to the south from Main Street between Orscheln's and Kwik Shop, from the west through Autumn Blaze Addition, and to the east off of 199<sup>th</sup> Street West.

Medical Lodge Sr. Housing: Work is progressing on this senior housing project that was approved in 2017. The development adds 12 parcels and 24 utility customers plus the club house to Goddard's housing inventory. The average value is approximately \$160,000/\$80,000 per unit/duplex. Each unit valued at approximately \$80,000 will generate an assessed valuation of \$9,200 and a total assessment of \$220,800 (excluding the clubhouse). Each unit generates a municipal property tax of \$307 or an estimated total municipal property tax generation of \$7,360 plus the clubhouse valuation.

SE Growth Corridor Lift Station: Staff will present bids in January for construction of the sanitary sewer lift station that will serve a minimum of 3 ¼ sections or an estimated 800 homes. Arbor Creek Addition will be one of those additions served by this project. The project is estimated to total \$780,000 and will be financed through the issuance of 4 year temporary notes with a portion of the notes planned to be retired in 2024 with the remainder being financed through a long-term debt issuance. In an effort to safe guard and even improve upon our AA- S&P bond rating and to reduce the potential for a negative cash flow impact in the event of a financial downturn the local Wichita metro economy, Staff cautions against any further public/private partnerships for residential development for the 3-5 years.

Water Rights Extension: The City Administrator with assistance from Public Works Director Brooke Brandenburg submitted the necessary paperwork to extend the City's current water rights for an additional five years. The specific water rights that were extended are for Water File #'s 40924 & 40926 with rights until 12.31.2025.

North Park: Due to holiday schedule conflict the closing on the property was delayed and is scheduled to occur the week of January 13<sup>th</sup>. I hope to report the completion of the transaction at the January 21<sup>st</sup> regular City Council Meeting.

RCUT Project: This project that was approved at the August 19, 2019 regular meeting with the approval of KDOT agreement #126-19 for Project #54-87 KA-4362-01 is officially underway. The design process is formally underway with surveying and geotechnical investigation to occur over the next four weeks. Field check plans should begin the last week of January and should be completed before March 20<sup>th</sup>. We anticipate advertising and awarding the bid by the October 5, 2020 regular City Council meeting. The design cost for this project totals \$186,210 and is the responsibility of the City of Goddard with KDOT financing 100% of the project's construction, which is estimated to be \$1,809,310.

183<sup>rd</sup> Street Frontage Rd Realignment: Design work continues with frontage road access to the north of the bank being determined this week by the 1<sup>st</sup> National Bank of Hutchinson. Once the north access is established, the City Engineer will finalize the design and submit it to KDOT for review. Staff anticipates advertising the project in March with an April bid award. This project is KDOT project #5215-01 and approved with agreement #28-19 on May 20, 2019. The City is responsible for the design and preliminary construction costs with KDOT financing 100% of the construction. To date the City has spent \$56,335 for right-of-way acquisition required by KDOT for future US-54/400/Kellogg expansion, which was approved at the June 3, 2019 regular City Council meeting.

WAMPO Project Approval: The Wichita Area Metropolitan Planning Organization recently approved a project for traffic and pedestrian improvements to the 183<sup>rd</sup> Street corridor. City Planner Micah Scoggan presented this project proposal in November of 2019. Funding for the project can be expected in 3-4 years and staff will report back to the Governing Body updates as work/news occurs. Otherwise, this project will be mentioned quarterly during the review of approved projects with the tentative timeline for its development.

2019 Christmas Tree Disposal Site: Goddard Public Works is partnering with Sedgwick County Environmental Resources to provide a Christmas/Holiday Tree disposal location in the parking area at the northwest corner of the swimming pool parking lot in Means Park (Cedar & South Streets). It is the same location as previous years and will be in place until Tuesday, January 22<sup>nd</sup>. I have included an attachment with map of the location and image of the disposal site.

Respectfully Submitted,  
Brian W. Silcott, City Administrator

**APPROVAL OF THE MINUTES**

**MOTION:** Commissioner *Grafing* moved to approve the minutes from November 13, 2019. Commissioner *Coyne* seconded the motion. The motion carried unanimously.

**CITIZEN COMMENTS**

Thomas Barriner {311 N Cedar} said that rental properties in that area have in the past housed prostitutes and drug dealers and the neighborhood does not need those type of people in the area and he felt that the development should not be a five plex.

Edward Knox {120 E 1<sup>st</sup>} said that they created the zoning code for a reason and the PUD is not a tool for bypassing the zoning code. He felt that the new revision of the PUD does not allow the adequate review of what is being proposed. He stated that a five plex would not fit in the neighborhood of mostly single-family residences. He further stated that he could understand a PUD being used for a larger lot of ten or more acres but using it for a smaller lot did not seem reasonable to him.

He further stated that he believed the current zoning regulations were adequate and should not be changed and he felt that even a duplex on that lot would not be a good choice for this neighborhood.

He further stated that once a PUD was passed the developer could propose and build a tower on the spot or any type of development that was completely contrary to the surrounding neighborhood.

Daniel Carlyle {217 Cedar} asked if the development had even considered the drainage of this project and how the introduction of more paved space would affect the ditched along 2<sup>nd</sup> avenue. He also stated that the property in the past had not been mowed and if this was the same developer what promises did he have that it would be maintained after the development occurred?

Tammy Carlye {217 Cedar} stated that her husband and her have lived in Goddard for over 30 years. She stated that her husband has worked on many projects including residential and commercial projects and she trusted his opinion that this project was not ideal for Goddard. She said she was concerned about how this new development would affect her property. She said she wanted to see Goddard bring in projects that would add to Goddard and not take away from it. She said she would like to see the Planning Commission take time to consider what they are proposing with this new development.

James Streelow {838 S 199<sup>th</sup> St} said before Mr Fouts bought the land they wanted a gun range around that area and it was denied when the citizens found out about the proposal. He said that he did not want animal manure near his property, and he did not like the idea that Tanganyika was putting in an access road to 199<sup>th</sup> that would run along the south side of his property. He said that in the past when Mr Fouts bought the land to turn into a zoo the neighbors along Hawkins road did not like it.

## **BOARD OF ZONING**

### **PUD POLICY AMENDMENT**

*Scoggan* introduced the Planned Unit Development (PUD) policy amendment. He stated that the older version did not allow enough flexibility on the front end for developers to change the design. This forces them to have all of the development outlined in detail which can still be denied at a later date. *Scoggan* further stated that with a PUD it is considered one of the most transparent zoning classifications due to the fact it requires overview at many stages of the process. He further stated that this oversight is what allows for the first step concept design to be allowed. He further stated that platting should not always be required if the property is already platted and the development is not introducing more easements.

**MOTION:** Commissioner *Coyne* motioned to approve the Planned Unit Development policy amendment. Commissioner *Grafiing* seconded the motion.

**5-1** Motion carried

### **PUD REZONING TANGANYIKA WILDLIFE PARK**

*Scoggan* introduced the rezoning proposal for Tanganyika Wildlife Park (TWP) for a PUD from an R-1. He stated that when TWP was rezoned to a PUD at its inception its logical to assume when the development continues to grow it would require another PUD to accommodate the new

development. He stated that TWP was a great asset to the City of Goddard and it rezoning to a PUD for TWP similar to the past would allow for TWP to create and design new amenities to serve the public further enhancing the experience and attracting more visitors to Goddard.

Commissioner *Dendurent* asked who was in that area first, the zoo or the residential properties? *Scoggan* replied it was the residential properties first and then the zoo.

*Jim Fouts* stated he had acquired that land in 1984

**MOTION:** Commissioner *Coyne* motioned to approve the rezoning of the land from R-1 to a PUD. Commissioner *Grafing* seconded the motion.

**5-1** Motion carried

#### PUD REZONING 227 CEDAR ST

*Scoggan* introduced the rezoning proposal for 227 Cedar St. He stated that the land was too small for a typical R-3 rezoning and the developer agreed to move forward with a PUD rezoning understanding it was more expensive. *Scoggan* stated that under an R-3 there is a minimum of 3000 sq ft required per dwelling unit and the lot currently sits at just under 14,000. *Scoggan* stated that a PUD zoning classification is the most transparent zoning classification and it must go through multiple review stages before it becomes finalized.

*Scoggan* stated the he spoke with Jack Manion a Residential Land Appraiser of Sedgwick County and he stated it would virtually guarantee the property values would increase.

*Cowgill* spoke apologizing for not engaging the neighborhood first prior to proposing the rezoning. He stated that they would vet every resident with a background check and credit score check. He stated the rent would be around a \$1,000 a month and they would maintain the property diligently.

Ed Knox asked about screening from the other residents.

*Cowgill* replied this was not common practice unless it was commercial abutting residential.

Dan Carlyle asked about parking and water drainage off the property.

*Cowgill* stated this was something that would be addressed through the PUD site plan process.

*Scoggan* proposed moving forward with adopting the PUD rezoning for 227 Cedar St.

*Vice Chair Cline* looked for a motion. No formal motion was taken.

*Scoggan* proposed tabling the project until January for review and further consideration

**MOTION:** Commissioner *Parks* motioned to table the rezoning consideration until further review in January. Commissioner *Grafing* seconded the motion.

**6-0** Motion carried

**NEW BUSINESS**

*Scoggan* introduced the new Final Plat for Rustic Creek. He mentioned that the property is comprised of around 41 acres and is currently zoned R-1 for Single Family. He mentioned that Garver will not need to rezone the property since they are proposing all Single-family housing on the site. *Scoggan* further stated that the property has been plated to accompany 106 lots. He mentioned that the approach from the east has been resolved in a mutually acceptable proposal by the developer and the property owner.

*Cline* asked about the neighbor's driveway

*Clevenger* of Garver spoke indicating that the conversation between Goddard Investments LLC and the neighbor were beneficial with the developer willing to provide a temporary driveway during construction and a new driveway after construction. They are also willing to designate around 50 sq ft for the attached garage that is off the property line.

*Commissioner Dendurent* asked about open ditches or would the water flow through pipes?

*Clevenger* said they would carry all the storm water with curb and gutter and storm pipes.

*Clevenger* also mentioned they were proposing a drainage easement through a neighbor to the norths property which they were still working to have an agreement with.

*Vice Chair Cline* asked about parks around that location.

*Clevenger* mentioned that they would be giving a lot to the city for the development of a park in that neighborhood.

**MOTION:** Commissioner *Coyne* motioned to approve the Final Plat for the Rustic Creek development contingent upon approval by the City Engineer of the drainage plan. Commissioner *Grafing* seconded the motion.

**6-0** Motion carried

**CITY PLANNER REPORT**

*Scoggan* informed the Planning Commission that in January they would go through formal voting for the Chair and Vice Chair as required by the Planning Commission by laws. He also mentioned he would have them sign a voluntary three-year term form for recording.

*Scoggan* stated that if 227 Cedar had passed, they could consider a site plan in January but since it was tabled, they would instead review the project.

*Scoggan* informed the Planning Commission that the City Planner (*Scoggan*) had presented the three WAMPO projects in November to a 7-person panel who would review and decide on what projects would move forward.

### **GOVERNING BODY COMMENTS**

*Vice Chair Cline* asked about when they would know more about the WAMPO submission.

*Scoggan* replied they would find out more in June if it was accepted into the TIP

*Commissioner Grafing* asked about the STAR Bond

*Scoggan* replied the General Contractor pulled the building permit for the Genesis Gym and they would need a sperate permit for the Hampton Inn.

### **ADJOURNMENT**

**MOTION:** Commissioner *Grafing* moved to adjourn the regular meeting.  
Commissioner *Coyne* seconded the motion. The motion carried  
unanimously.

*Meeting adjourned at 8:07 pm.*  
*Micah Scoggan, City Planner*

# 2019 AGENCY ACHIEVEMENTS

- Continued to overhaul and update our policy manual. To date, 29 policies have been implemented or replaced.
- In 2018 an employee evaluation system was implemented. This has been crucial to the development of our personnel and in identifying their strengths, weaknesses as well as assisting them in achieving personal goals set each year.
- This was the first full year the detective position was occupied by one person. Det McCann has quickly adapted to the position and is recognized by her peers, supervisors and the DA's office as a talented and determined detective. Having the right person in that position has led to numerous cases being solved and appropriately charged.
- Our in-house instructor cadre has helped to transform our training to a level that is producing proficiency in required disciplines. By building quality instructors in-house, we are also building future leaders and subject matter experts.
- Officers Lamar and Pike are certified Emergency Medical Technicians and continue to handle the responsibility of training all city staff in CPR, AED, and trauma care. Additional training equipment has been purchased that will greatly assist in providing that training to all city staff.
- We have continued to send our officers and staff to training courses outside the area and state. This helps to ensure we are remaining on the cutting edge of best practices and providing the highest quality policing.
- The Community Service Officer (CSO) position was created and CSO Fulcher was hired in 2019. She has taken on a great deal of administrative responsibility, freeing up police officers that had previously been handling those tasks.
- Due to an opening in Patrol and an extended military deployment, a hiring process was conducted, and two new officers were brought on toward the end of 2019. Both will graduate the academy in February 2020 and should be on their own before summer.
- With the help of a grant awarded by Walmart, Goddard PD developed an Unmanned Aircraft System (UAS) Program. Two officers have received their FAA certification to operate the UAS and the agency was awarded a Certificate of Authorization to deploy these incredibly useful devices. The UAS has been deployed operationally on several calls that took police officers directly out of harm's way.
- Command staff and leadership began a SWOT (Strengths, Weaknesses, Opportunities, and Threats) Analysis that will be used to begin crafting a strategic plan for the organization. Our hope is to develop a 5-year plan that will be a living document and guide for this agency.

## 2020 GOALS

- Continue to develop quality, in-house training as we bring on two new officers. Additional outside training will focus on core proficiencies we hope to improve upon.
- Develop a 5-year strategic plan that will focus on agency growth proportional to city development and growth. Included will be a cost analysis for adding additional officers and an additional CSO that would handle ACO and community standards/code enforcement
- Continue expanding our community outreach and education programs
- Enhance our policing capabilities using technology and intelligence-based practices

## Community Development

## Community Development

### Residential

During the 2019 year the City of Goddard approved three (3) residential subdivisions with the third still being reviewed currently by the City Engineer before final submittal.

These subdivisions represent a continue increase in the residential real estate market in Goddard which is being driven by a top tier school district (USD 265) and the cities proximity to a large workplace generator, the City of Wichita.

St Andrews place, 4<sup>th</sup> Addition, is nearing full occupancy and Elk Ridge Phase 3 (22 lots) is currently under construction. Arbor Creek (245 lots) is currently underway with grading and paving beginning. Six building permits have already been pulled for that subdivision with the median value at \$263,000

Medical Lodge/Easy living Addition is in the midway stage with 12 duplexes for seniors (55+) being constructed and they will be looking for Certificate of Occupancy soon. This development comes with a community center for seniors only of the development.

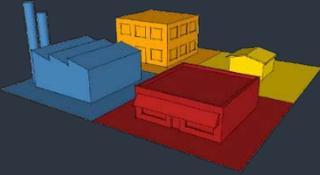

### Commercial

Burger King has arrived in Goddard and is open for business.

Hutton Construction is working as the General Contractor for USD 265 as they add their additions to Challenger Intermediate School & Oak Street Elementary.

The Genesis Gym and Hampton Inn continues to rise as Rock Construction, the acting General Contractor, moved forward with pulling the building permit for the Genesis Gym. We can expect another permit for the Hampton Inn later.

Tanganyika Wildlife Park will be adding a new splash pad to their amenities inside the park and the current owners anticipate with the creation of a new CID they will expand the park further to the west.

## Looking Ahead

The Library will continue to increase our programming and outreach with a main focus on intergenerational programs. Over the summer, we will have a gardening program that will pair older individuals with children to teach gardening, harvesting, and preparing food from the garden. In September we plan to begin Sensory StoryTimes for children who have sensory difficulties. Wine and Color will continue but be expanded. There will be Wine and Painting, Wine and Trivia, another Margarita night and possibly some Karaoke.

The Library's biggest obstacle is space. Our StoryTime participation is growing. We have anywhere from 14 to 30 or more children in attendance and with parents there can be anywhere from 25-65 individuals total. We have seen several of our programs in Fall of 2019 with 95 or more individuals in attendance.

# Park Advisory Board

## *Annual Report 2019*

### 1st Quarter 2020 Goals

- North Park Master Plan
- Community Events in the Parks

## Background

The Park Advisory Board holds public meetings on the third Thursday of the month at 6:00 pm at City Hall. The advisory board is comprised of seven members with the purpose of providing the City Council with recommendations for improvements and beautification in our city parks and open public spaces. With the direction of the City Council, the Park Advisory Board has successfully provided recommendations on several exciting projects during fiscal year 2019.

## Year in Review

The Park Advisory Board held four meetings during 2019. Many of these meetings related to the new playground equipment placed in Linear Park. The last meeting of 2019 was a look ahead at the future for the Park Board. The Park Advisory Board worked closely with Mayor Blubaugh and contractors to design the new park upgrades.

## Looking Ahead – 2020 & Beyond

The Park Advisory Board will have direct involvement in the North Park planning process. Due to extensive investments in Parks during 2018 and 2019, the fund balance will need to be increased for the coming year. During this time, we hope the Park Board can help with much of the Master Plan for the North Park. We expect the ground to be officially signed over to the City by early February. We expect cleanup and preparation for construction of the Park to begin in 2021.

There has also been discussion of incorporating the Park Board in the planning process for community events, specifically those at Linear Park. City Staff hopes to utilize the Park Board in the future to brainstorm event ideas and improvements for existing events. We hope that this would allow more involvement and engagement of the Park Board members. Also, park planning is not always a year-round process.
