Water-Wise Tips

If you shorten your morning shower by a minute or two you can save up to 150 gallons of water a month.

Adjust your lawn mower blade up higher to prevent water in the soil from evaporating.

Wash your car on the lawn and you'll water the lawn at the same time.

Upcoming Events

Independence Day Celebration

July 4th (333 S. Main St).
Food, Fun, & Fireworks

3 on 3 Pool Basketball Tournament

July 13th Goddard City Pool

National Night Out

August 6th

Luau at the Pool

August 10th

Mayor's Message

Hello friends and neighbors!

I am so excited that we are bringing back the "Goddard Glance". We are a city on the move with lots of exciting things going on, and the "glance" is a great way for us to keep you informed about it.

The City Council, City staff, and I are currently beginning discussion on a city strategic plan. It will be important that we get input from all our residents on how you would like to see the community grow. Hopefully we will be able to begin that process within the next several months, but in the meantime, if you ever have any questions or concerns, please give me or one of the council members a call.

Best wishes for a safe and happy summer

Marcey

4th of July Celebration

Have some fun with us on July 4th at the baseball fields West of Discovery Intermediate School. (333 S Main St)

The event starts at 7:00 pm with free Hot Dogs, Water, Chips, Watermelon, and Ice Cream for the first 400 people.

There will be softball, an inflatable moon bounce for the kids, and a firework show sponsored by the Lions Club, Activities Committee, and the Chamber of Commerce.

*Remember to leave your personal fireworks at home

Goddard Community Storm Shelter

The City of Goddard can now provide shelter for up to 86 residents during severe weather.

Last year the City Council approved construction of a new community storm shelter for residents of Goddard. The shelter is now complete, and the public is welcome to use this storm shelter during times of severe weather. The storm shelter meets FEMA standards to hold up to 86 individuals. The new shelter is located in the City's Linear Park on the East side of the intersection at Main Street and Santa Fe

During the tornado warnings on May 19th the shelter was used by several families. If you need a safe shelter during a storm you are encouraged to use this facility. The City is committed to keeping residents safe, and this shelter will help accomplish that goal.

Road Maintenance Projects: Summer 2013

City Council approved of
\$198,362 in road maintenance
projects to happen this summer.

Photo example of AXYS from invia-tech.com

During the June 3, 2013 regular City Council meeting almost \$200,000 of street maintenance projects were approved. Plans are underway to crack seal and edge seal the St. Andrews Addition and the Spring Hill addition. A few roads in St. Andrews and Spring Hill will also be receiving some AXYS surface treatment to prolong the roads life. The City Council also approved of a 2" mill and overlay of Industrial Road, and utility cut repairs on Walnut Street.

As always the City will try and keep residents informed on when these projects will start. We are working to minimize the inconvenience of construction. None of these projects should significantly impact traffic flow in the City.
