Road Maintenance Projects Scheduled for Summer 2016

City Council approves \$171,209.40 in road maintenance projects

On June 6, 2016, the City Council approved \$171,209.40 of street maintenance projects projected for the 2016 Summer Season. Plans are underway for crack and fog sealing, chip sealing, and mill and overlay work in areas of Old Town, St. Andrews, N. Frontage Road, and S. Frontage Road.

As always, the city will keep residents informed of when these projects will occur. While we are working to minimize the inconvenience of construction, none of these projects should significantly impact traffic flow in the City.
