STAR Bond Update

The City is excited to announce that the development agreement and project plan for the Goddard Star Bond have been approved. The first phase of this project is expected to invest \$70.8 million into the City of Goddard. The City will be investing \$1.25 million into public infrastructure, additionally \$44.15 million will be invested from private equity, and \$25.4 million will come from the State of Kansas

Proposed STAR Bond District land use. Phase I includes the hotel, natatorium, and baseball fields

Phase I of the STAR Bond includes a hotel, competitive swimming facility, and baseball fields. This new development is estimated to bring the City an additional \$378,000 annually in property taxes.

Construction of the STAR bond will generate 318 construction jobs, and 528 indirect jobs. It is expected that the natatorium and baseball fields will bring 262,500 visitors into Goddard. The hotel and conference center will attract 35,000 guests.

Concept plan by Architectural Design Consultants Inc. for the hotel and natatorium

The \$25.4 million STAR Bond portion of the development will be paid through sales tax revenues within the district. Only sales taxes collected within the district will be used in reimbursing the STAR bonds; this includes taxes from the community improvement district and transient guest tax. The first phase is anticipated to be completed before January 2017.

For more information about this STAR Bond project please visit www.goddardks.gov/starbond

Community Clean-up Information

Dumpsters are available for any extra
spring cleaning trash you may have.

The city-wide clean-up is scheduled for May 10th from 8am until noon. Trash bins will be located outside of the public works facilities at 1206 S. 199th St W.

The following items will be prohibited from
dumping in the dumpsters:

Tires, car batteries, oil, solvent, paint,
hazardous chemicals, and any appliances
containing Freon (items with Freon will be
accepted once the Freon has been removed).

Our City compost and tree limb sites are located at the same address, and they will be open for public use if you want to drop off your yard waste.
