## New Symbol of Access

Goddard City parking lots will have a different look to them when some new accessible parking signs are installed this month. The City of Goddard will be the first city in the country to change all of its municipal owned signs to the modified symbol of access.

This new symbol is a movement to show an active, robust, and mobile person, instead of the traditional stagnant chair seen on the traditional accessible parking sign.

Please continue to show respect for those who need accessible parking by leaving these parking stalls available.

## Community Thanksgiving

Thanksgiving is a time for families and friends to come together and think about the things they are grateful for. This year the City of Goddard would like to express its gratitude for your continued support in our community. To show our gratitude we invite you to a Community Thanksgiving Feast on November 13<sup>th</sup> from 11:15am-12:45pm.

There will be plenty of turkey, rolls, green beans, pie, and homemade mashed potatoes to go around. This event is absolutely free; all you need to bring is an appetite for some delicious food. –Any donations will be going towards a charitable cause.

The Community Thanksgiving feast will be held at the Goddard Methodist church at 200 North Cedar, here in Goddard.

## Great American Smokeout

November 20<sup>th</sup>: A day  
to quit tobacco use.

# KanQuit!

1-800-QUIT-NOW (784-8669)

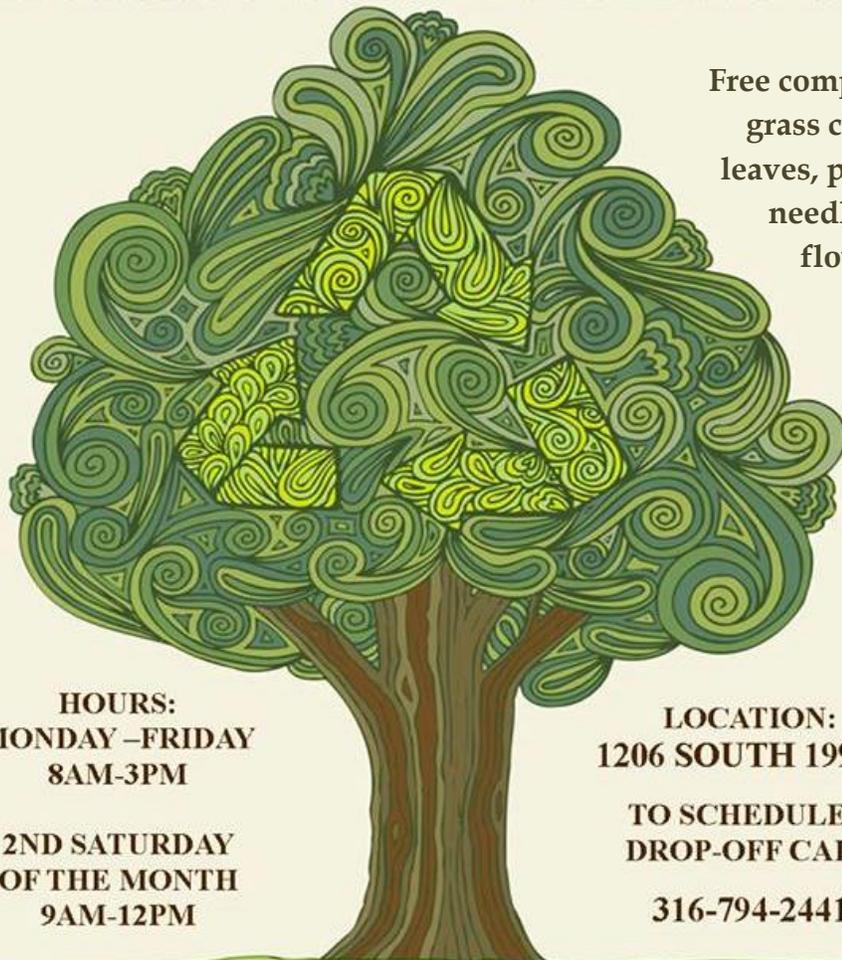

[www.KanQuit.org](http://www.KanQuit.org)

If you are ready to take that step we want to help! In an effort to create a healthy community, the City of Goddard encourages you to participate in the Great American Smokeout on November 20. The Great American Smokeout is a day to start reducing use, or just to refrain from tobacco use for 24 hours.

Here are some improvements you could see if you quit smoking.

- 2 weeks-3 months: circulation improves and lung function increases
- 1-9 months: coughing and shortness of breath decreases
- 1 year: risk of coronary heart disease is cut in half
- 5 years: risk of cancer in mouth, throat, esophagus and bladder are cut in half
- 15 years: risk of coronary heart disease is the same as a non-smoker
